

In fond memory of

Richard F. Hazel

...whose foresight and dedication in supporting local philanthropic causes has made his name synonymous with charitable giving on the Lower Eastern Shore of Maryland.

Dick Hazel was a past member of the Community Foundation's Board of Directors, first serving on the board in 1987. He played an important role in the Community Foundation during its formative years and throughout his lifetime made a vital, sustained and unselfish contribution to charitable needs throughout our community.

Dick's generosity and support of charitable giving encompassed a wide spectrum of local needs. He had a particular passion for helping young people to achieve their dreams. Among his many accomplishments was creating a Community Foundation endowment to provide college scholarships for minority students training to become teachers. This one effort alone has helped to educate dozens of minority teachers and will continue in perpetuity.

Dick Hazel's example has enriched all of our lives. His philanthropic spirit will always be a part of our community and our Community Foundation legacy. He will be missed, but not forgotten.
